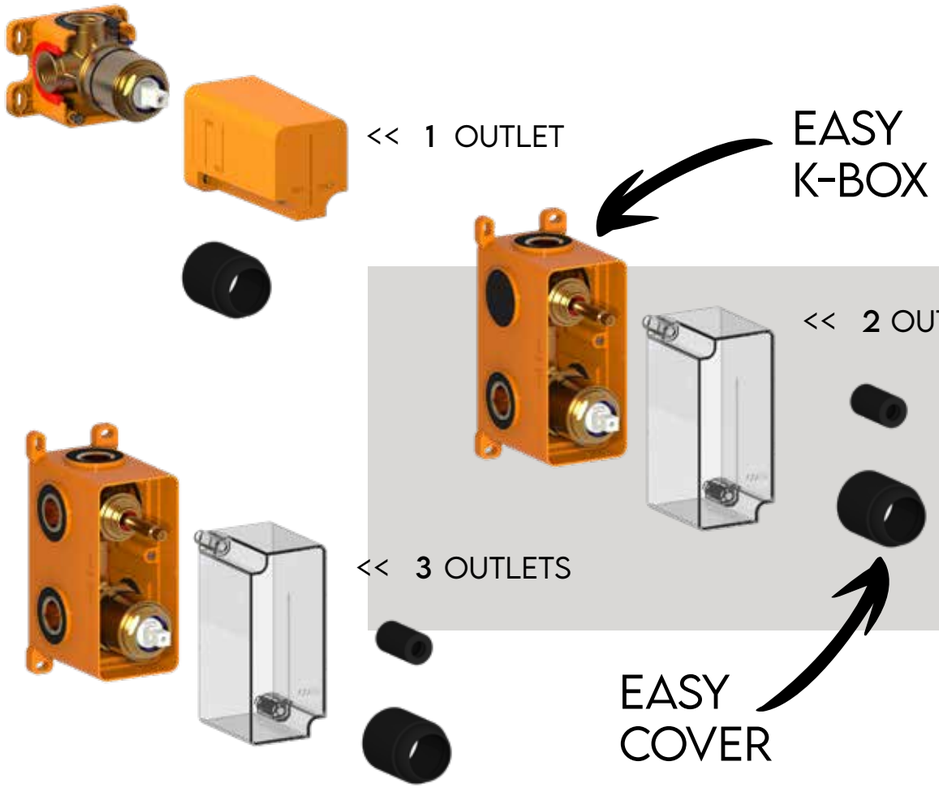
BENVENUTI NELL'ERA DELL'IDRAULICA SENZA LIMITI!

WELCOME TO THE AGE OF PLUMBING WITH NO LIMITS!

Il nostro nuovo progetto sui corpi incasso è un'ottima soluzione per chi desidera combinare funzionalità, estetica e flessibilità. Un nuovo modo di vedere e di vivere la progettazione dell'ambiente bagno per quanto riguarda miscelatori da incasso lavabo e doccia, che offre la libertà di decidere senza limiti.
La possibilità di installazione solo del corpo incasso facilita sia il lavoro dell'idraulico, il quale può procedere senza le parti esterne, sia il cliente che ha tutto il tempo di decidere comodamente design e finitura per rispettare lo stile del bagno.

Our new design on concealed bodies is an excellent solution for those who wish to combine functionality, aesthetics and flexibility. A new way of looking at and experiencing bathroom design with regard to concealed basin and shower mixers, which offers the freedom to decide without limits.
The possibility of installing only the built-in body facilitates both the work of the plumber, who can proceed without the external parts, as well as the customer who has plenty of time to comfortably decide on the design and finish to match the style of the bathroom.



I VANTAGGI

- Estetica Pulita: Le parti interne sono nascoste, lasciando una superficie esterna minima e ordinata.
- Manutenzione semplice: Le parti esterne intercambiabili consentono una manutenzione e un aggiornamento più semplici, senza dover smontare l'intera unità.
- Flessibilità di design: puoi cambiare l'aspetto della tua doccia con facilità, aggiornando solo le parti esterne per adattarle a nuove tendenze o cambiamenti di arredamento.

THE ADVANTAGES

- Clean aesthetics: Internal parts are hidden, leaving a minimal, neat external surface.
- Simple maintenance: Interchangeable external parts allow easier changes and maintenance, without having to dismantle the entire unit.
- Flexible design: you can easily change your shower look, replacing only the external parts to suit new trends or changes in décor.

CONFIGURAZIONE DOCCIA 1 USCITA

SHOWER CONFIGURATION 1 OUTLET

Questi miscelatori sono progettati per controllare il flusso e la temperatura dell'acqua per una singola uscita, che di solito è il soffione della doccia. Sono costituiti principalmente da una valvola miscelatrice interna che regola il flusso dell'acqua calda e fredda e un'impugnatura esterna per controllare la temperatura e il flusso.

These mixers are designed to control the flow and temperature of water for a single outlet, which is usually the shower head. They mainly consist of an internal mixing valve that regulates the flow of hot and cold water and an external handle to control the temperature and flow.

Questi miscelatori hanno due o tre uscite che possono essere utilizzate per controllare due flussi d'acqua separati, ad esempio un soffione a soffitto e una doccia a parete. Hanno una struttura simile ai miscelatori con una sola uscita, ma con una valvola aggiuntiva chiamata deviatore che devia il flusso fra la prima, la seconda uscita e la terza uscita, il deviatore può essere meccanico, per le due uscite quindi con pulsante da premere per deviare che torna poi alla posizione originaria, oppure con deviatore ceramico per le due uscite e le tre uscite moderno ed ergonomico.
Anche in questo caso, l'utente può regolare la temperatura e il flusso dell'acqua attraverso un'unica impugnatura esterna.

These mixers have two or three outlets that can be used to control two separate water flows, for example a ceiling-mounted shower head and a wall-mounted shower. They have a similar structure to 1-outlet mixers, but with an additional valve called a diverter that diverts the flow between the first, second and third outlet. The diverter can be mechanical, for the two outlets then with a button to press to divert which then returns to the original position, or with ceramic diverter for the two outlets and the three outlets, modern and ergonomic. Also in this case, the user can adjust the temperature and water flow through a single external handle.

BOX *doccia*

Primavera
COLLEZIONE

Gli spazi doccia Walk-in traformano i nostri bagni in stanze dal design grandioso e di classe! Questa soluzione ha recentemente raggiunto la popolarità e consiste nel separare lo spazio servendosi di pannelli di vetro temperato e barre di supporto.

Grazie alle 25 finiture della Collezione Primavera il livello di personalizzazione dell’ambiente bagno è altissimo. L’ampia gamma di prodotti accompagnati dagli accessori bagno si arricchisce ancora di più con le placche WC e i box doccia.

Easy ® Clean

Il rivestimento protettivo facilita la pulizia del box doccia.
Grazie alle proprietà idrorepellenti del rivestimento, le goccioline d'acqua non aderiscono alla superficie del vetro, ma scivolano via senza lasciare residui.

Glass protection coating allows to clean the shower enclosure easily. Due to hydrophobic properties of the coating, water drops does not stay on the glass but streams down without leaving the stains.

CARATTERISTICHE DEL PRODOTTO ……..
PRODUCT FEATURES

Vetro di sicurezza temperato

Safety glass, tempered with thickness 8 mm

Sistema di fissaggio facile e veloce

Easy and fast wall mounted system
